

D acoustics

PANEL SPEAKER SYSTEM

FD is a technology breakthrough:

Ideal sound system that layered Technology (Patented) and superior acoustical design to deliver both enjoyable music and intelligible, natural speech, even in highly reverberant spaces where conventional solutions have failed.

FD is truly new sound reinforcement system that produces HIDDEN sound wave.

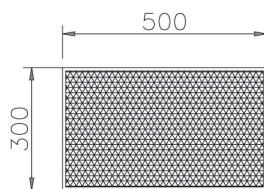

Corelated wave  De-corelated wave

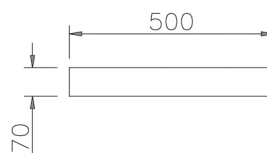

FD4

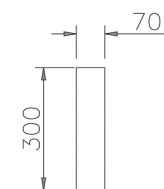

Frequency response(± 3 dB) : 200Hz~6kHz
Power(RMS/PEAK) : 80/160W
Impedance : 8Ω
Coverage(H \times V) : 360°
SPL : 94 dB
Dimensions(W \times H \times D) : 500 \times 300 \times 70mm
Weight : 5.04kg
