

ZECK AUDIO

Line array subwoofer

Cubic12sub

■ Features

Cubic 12SUB is the new subwoofer designed by zeck for use with CUBIC5.

You can use it with zeck line array or with other zeck cabinets for fixed installation such as FD 6.1 rock or FD 8.1.

The CUBIC 12SUB is equipped with the ultimate woofer for bass frequency reproduction. This allows to obtain high levels of SPL and power handling, and reduced THD with a power to weight ratio at the upper level. The cabinet has this measurement and its weight is only 15kg but can support it up to 900W AES. Other important characteristic is that it has the new multireflex system, designed by zeck audio, that allows to change the speaker frequency response depending on the different applications that you can use this cabinet.

■ Specifications

Type / Drivers	1 x 12" subwoofer
Nor. input power AES/Cont.	900/1,300W
SPL. 1w/1m	97dB
SPL. Nom. Power	126dB
SPL. Cont. Progr.	129dB
SPL. Peak	132dB
Frequency range	40Hz-500Hz
Coverage With DHF	-
Impedance	8Ω
Crossover frequencies	200Hz
Dimension (W x H x D)	555 x 370 x 420mm
Weight	17.5kg
